

Approximate Oxygen Tank Duration Times

- Find your tank on the left.
- On the chart below, find your tank size and your Oxygen Flow Rate (LPM*) to find the approximate oxygen tank duration times. *Example: E tank on 1 LPM will last 11.3 hours (approx.)*
- Duration times will vary from patient to patient.

Oxygen Flow Rate (LPM)		.5	1	1.5	2	2.5	3	3.5	4	5	6
TANK SIZES Approximate Duration Time	E	22.7	11.3	7.5	5.6	4.5	3.7	3.2	2.8	2.2	1.8
	D	13.3	6.6	4.4	3.3	2.6	2.2	1.9	1.6	1.3	1.1
	B/C	8	4	2.6	2	1.6	1.3	1.1	1	48 min	40 min
	M6	5	2.5	1.75	1.25	1	30 min	N/A	N/A	N/A	N/A

These are approximate times and will vary slightly from patient to patient. All times are in hours unless otherwise noted.
